99.1 Press release dated May 4, 2017

May 4, 2017 (Date) First Quarter 2017 Net Investment Income Increased to \$0.57 Per Share

First Quarter 2017 Distributable Net Investment Income Increased to \$0.61 Per Share

Net Asset Value Increased to \$22.44 Per Share

HOUSTON, May 4, 2017 /PRNewswire/ -- Main Street Capital Corporation (NYSE: MAIN) ("Main Street") announced today its financial results for the first quarter of 2017.

#### First Quarter 2017 Highlights

- Net investment income of \$31.2 million (or \$0.57 per share), representing a 15% increase from the first quarter of 2016
- Distributable net investment income <sup>(1)</sup> of \$33.4 million (or \$0.61 per share), representing a 16% increase from the first quarter of 2016
- Total investment income of \$47.9 million, representing a 14% increase from the first quarter of 2016
- Industry leading ratio of total non-interest operating expenses as a percentage of quarterly average total assets ("Operating Expense to Assets Ratio") on an annualized basis of 1.6%
- Net increase in net assets resulting from operations of \$31.5 million (or \$0.57 per share)
- Declared regular monthly dividends totaling \$0.555 per share for the second quarter of 2017, or \$0.185 per share for each of April, May and June 2017, representing a 2.8% increase from the regular monthly dividends paid for the second quarter of 2016
- Net asset value of \$22.44 per share at March 31, 2017, representing an increase of \$0.34 per share, or 1.5%, compared to \$22.10 per share at December 31, 2016
- Completed \$58.2 million in total lower middle market ("LMM") portfolio investments, including investments totaling \$50.4 million in two new LMM portfolio companies, which after aggregate repayments of debt principal and return of invested equity capital from several LMM portfolio investments resulted in a net increase of \$10.1 million in total LMM portfolio investments
- Net decrease of \$59.8 million in middle market portfolio investments
- Net increase of \$45.8 million in private loan portfolio investments
- Fully exited portfolio company debt and equity investments in Daseke, Inc., realizing a gain of \$22.9 million, a total internal rate of return of 28.3% and 2.2 times money invested

In commenting on Main Street's results, Vincent D. Foster, Main Street's Chairman and Chief Executive Officer, stated, "We are pleased with our operating results for the first quarter of 2017, a quarter during which we increased our total investment income and our distributable net investment income per share over the same period in the prior year. We also continued to demonstrate the unique benefits of our differentiated lower middle market investment strategy with the realized gain from the sale of Daseke. As a result of our positive performance, we again generated distributable net investment income per share in excess of our regular monthly dividends, exceeding the regular monthly dividends paid during the quarter by approximately 10%. In addition, despite the exit of our investments in Daseke, we were still able to grow our lower middle market portfolio, which remains the key to our continued long-term success."

#### First Quarter 2017 Operating Results

The following table provides a summary of our operating results for the first quarter of 2017:

Net increase in net assets resulting from operations per share	\$ 0.57	\$ 0.33	\$ 0.24	73%			

The \$5.9 million increase in total investment income in the first quarter of 2017 from the comparable period of the prior year was principally attributable to (i) a \$6.3 million increase in interest income primarily related to higher average levels of investment portfolio debt investments and increased activities involving existing investment portfolio debt investments and (ii) a \$0.4 million increase in fee income, partially offset by a \$0.6 million decrease in dividend income from investment portfolio equity investments. The \$5.9 million increase in total investment income in the first quarter of 2017 includes an increase of \$2.7 million primarily related to higher accelerated prepayment and repricing activity for certain investment portfolio debt investments.

Cash operating expenses (total operating expenses excluding non-cash, share-based compensation expense) increased to \$14.5 million in the first quarter of 2017 from \$13.3 million for the corresponding period of 2016. This comparable period increase in cash operating expenses was principally attributable to (i) a \$0.6 million increase in compensation expense related to increases in the number of personnel, base compensation levels and incentive compensation accruals, (ii) a \$0.5 million increase in general and administrative expenses, primarily related to non-recurring professional fees and other expenses incurred on certain potential new portfolio investment opportunities which were terminated during the due diligence and legal documentation processes, and (iii) a \$0.4 million increase in interest expense, primarily due to the higher average interest rate and balance outstanding on our long-term revolving credit facility ("Credit Facility") in the first quarter of 2017, with these increases partially offset by a \$0.4 million increase in the expenses allocated to our external investment manager, a wholly owned portfolio company and registered investment advisor that provides investment management services to third parties (the "External Investment Manager"), in each case when compared to the same period in the prior year. Our Operating Expense to Assets Ratio was 1.6% on an annualized basis for the first quarter of 2017, compared to 1.4% on an annualized basis for the first quarter of 2016 and 1.5% for the year ended December 31, 2016.

The \$4.7 million increase in distributable net investment income, which is net investment income before non-cash, share-based compensation

expense, was primarily due to the higher level of total investment income, partially offset by higher operating expenses as discussed above.<sup>(1)</sup> Distributable net investment income on a per share basis for the first quarter of 2017 reflects (i) an increase of approximately \$0.05 per share from the comparable period in 2016 attributable to the net increase in the comparable levels of accelerated prepayment and repricing activity for certain investment portfolio debt investments and (ii) a greater number of average shares outstanding compared to the corresponding period in 2016 primarily due to shares issued through offerings under our at-the-market, or ATM, program.

The \$14.6 million change in the net increase in net assets resulting from operations was primarily the result of (i) a \$14.0 million increase in the net realized gain (loss) from investments, (ii) a \$9.8 million improvement in net change in unrealized appreciation (depreciation) from portfolio investments and Small Business Investment Company ("SBIC") debentures, including accounting reversals relating to realized gains (losses), from net unrealized depreciation of \$26.2 million for the first quarter of 2016 to net unrealized depreciation of \$16.4 million for the first quarter of 2017, and (iii) a \$4.0 million increase in net investment income as discussed above, partially offset by (i) a \$5.2 million realized loss on the repayment of SBIC debentures outstanding at our wholly owned subsidiary Main Street Capital II, LP ("MSC II") which had previously been accounted for on the first quarter of 2016 to an income tax provision of \$5.6 million for the first quarter of 2017. The net realized gain form investments of \$27.6 million for the first quarter of 2017 was primarily the result of (i) the net realized gain of \$22.3 million on the exit of two LMM investments, (ii) the realized gain of \$2.6 million on the exit of net private loan investment and (iii) the net realized gain of \$2.5 million due to activity in our other portfolio. The realized loss of \$5.2 million on the repayment of SBIC debentures at fair value on the date of the acquisition of MSC II in 2010. The effect of the realized loss is offset by the reversal of all previously recognized unrealized depreciation on these SBIC debentures due to fair value adjustments since the date of the acquisition.

The following table provides a summary of the total net unrealized depreciation of \$16.4 million for the first quarter of 2017:

	Three Months Ended March 31, 2017								
	L	MM (a)	Midd	lle Market	Priv	ate Loan	Ot	her (b)	Total
				(do	llars in m	illions)			
Accounting reversals of net unrealized appreciation recognized in prior periods due									
to net realized gains recognized during period	\$	(20.0)	\$	(1.8)	\$	(1.4)	\$	(1.1)	\$ (24.3)
Net unrealized appreciation (depreciation) relating to portfolio investments		2.2		(2.0)		(3.3)		5.3	2.2
Total net change in unrealized appreciation (depreciation) relating to portfolio investments	\$	(17.8)	\$	(3.8)	\$	(4.7)	\$	4.2	\$ (22.1)
Net unrealized appreciation relating to SBIC debentures (c)									5.7
Total net change in unrealized depreciation									\$ (16.4)

Total net change in unrealized depreciation

(a) LMM includes unrealized appreciation on 22 LMM portfolio investments and unrealized depreciation on 15 LMM portfolio investments.

- (b) Other includes \$2.9 million of unrealized appreciation relating to the External Investment Manager and \$2.4 million of net unrealized appreciation relating to our other portfolio.
- (c) Relates to unrealized appreciation on the SBIC debentures held by MSC II which are accounted for on a fair value basis and includes \$6.0 million of accounting reversals resulting from the reversal of previously recognized unrealized depreciation recorded since the date of acquisition of MSC II on the debentures repaid due to fair value adjustments since such date, partially offset by \$0.3 million of current period unrealized depreciation on the remaining SBIC debentures.

The income tax provision for the first quarter of 2017 of \$5.6 million principally consisted of a deferred tax provision of \$4.4 million, which is primarily the result of the net activity relating to our portfolio investments held in our taxable subsidiaries, including changes in net operating loss carryforwards, changes in net unrealized appreciation/depreciation and other temporary book-tax differences, as well as other current tax expense of \$1.3 million related to (i) a \$0.9 million accrual for excise tax on our estimated undistributed taxable income and (ii) other current tax expense of \$0.4 million related to accruals for U.S. federal and state income taxes.

### Liquidity and Capital Resources

As of March 31, 2017, we had \$33.6 million in cash and cash equivalents and \$267.0 million of unused capacity under our Credit Facility, which we maintain to support our investment and operating activities.

Several details regarding our capital structure as of March 31, 2017 are as follows:

- Our Credit Facility included \$555.0 million in total commitments from a diversified group of fourteen participating lenders, plus an accordion feature which allows us to increase the total commitments under the facility to up to \$750.0 million.
- \$288.0 million in outstanding borrowings under our Credit Facility, bearing interest at an annual interest rate of 2.7%.
- \$240.2 million of outstanding SBIC debentures through our three wholly owned SBIC subsidiaries, with \$109.8 million of remaining capacity under the permitted maximum amount of SBIC debentures of \$350.0 million. These debentures, which are guaranteed by the U.S. Small Business Administration, had a weighted-average annual fixed interest rate of approximately 3.8% and mature ten years from original issuance. The first maturity related to our SBIC debentures occurs in 2019, and the weighted-average remaining duration was approximately 5.7 years.
- \$175.0 million of notes outstanding that bear interest at a rate of 4.50% per year (the "4.50% Notes"). The 4.50% Notes mature on December 1, 2019 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.
- \$90.7 million of notes outstanding that bear interest at a rate of 6.125% per year (the "6.125% Notes"). The 6.125% Notes mature on April 1, 2023, and may be redeemed in whole or in part at our option on or after April 1, 2018. The 6.125% Notes are listed on the New York Stock Exchange and trade under the symbol "MSCA."
- Our net asset value totaled \$1,243.9 million, or \$22.44 per share.

# Investment Portfolio Information as of March 31, 2017<sup>(2)</sup>

The following table provides a summary of the investments in our LMM portfolio, middle market portfolio and private loan portfolio as of March 31, 2017:

	As of March 31, 2017						
	LMM (a)	Mid	dle Market	Pri	vate Loan		
		(dol	lars in millions)				
Number of portfolio companies	73		69		49		
Fair value	\$ 886.6	\$	568.8	\$	384.2		
Cost	\$ 772.1	\$	588.9	\$	403.7		
% of portfolio at cost - debt	67.6%		96.9%		94.0%		

% of portfolio at cost - equity	36:1%	88:8%	96:2%
Weighted-average annual effective yield (b)	12.2%	8.6%	9.6%
Average EBITDA (c)	\$ 4.6	\$ 95.5	\$ 24.8

- (a) We had equity ownership in 99% of our LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was approximately 37%.
- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status.
- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the middle market and private loan portfolios. These calculations exclude certain portfolio companies, including five LMM portfolio companies, one middle market portfolio company and three private loan portfolio companies, as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate.

The fair value of our LMM portfolio company equity investments was approximately 165% of the cost of such equity investments and our LMM portfolio companies had a median net senior debt (senior interest-bearing debt through our debt position less cash and cash equivalents) to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio of 2.8 to 1.0 and a median total EBITDA to senior interest expense ratio of 2.6 to 1.0. Including all debt that is junior in priority to our debt position, these median ratios were 3.2 to 1.0 and 2.6 to 1.0, respectively.<sup>(2)</sup> <sup>(3)</sup> Based upon our internal investment rating system, with a rating of "1" being the highest and a rating of "5" being the lowest, and with all new investments initially rated a "3", the weighted-average investment rating for our total LMM investment portfolio was 2.4 as of March 31, 2017 and 2.3 as of December 31, 2016.

As of March 31, 2017, we had other portfolio investments in ten companies, collectively totaling \$106.3 million in fair value and \$111.8 million in cost basis, which comprised approximately 5.4% of our investment portfolio at fair value.

As of March 31, 2017, there was no cost basis in our investment in the External Investment Manager and this investment had a fair value of \$33.5 million, which comprised approximately 1.7% of our investment portfolio at fair value.

As of March 31, 2017, we had five investments on non-accrual status, which comprised approximately 0.2% of the total investment portfolio at fair value and approximately 2.7% of its cost. Our total portfolio investments at fair value were approximately 105% of the related cost basis as of March 31, 2017.

#### External Investment Manager

The External Investment Manager maintains an investment sub-advisory relationship with HMS Income Fund, Inc., a non-listed business development company ("HMS Income"), and earns management fees for the services provided to HMS Income. During the first quarter of 2017, the External Investment Manager generated \$2.6 million of fee income from this relationship, and HMS Income ended the first quarter of 2017 with total assets of over \$1.0 billion. The relationship with HMS Income benefited our net investment income by \$2.2 million in the first quarter of 2017 through a \$1.5 million reduction of our operating expenses for expenses we allocated to the External Investment Manager for services we provided to it and \$0.7 million of dividend income we received from the External Investment Manager.

#### First Quarter 2017 Financial Results Conference Call / Webcast

For a more detailed discussion of the financial and other information included in this press release, please refer to the Main Street Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017 to be filed with the Securities and Exchange Commission (www.sec.gov) and Main Street's First Quarter 2017 Investor Presentation to be posted on the investor relations section of the Main Street website at http://www.mainstcapital.com.

- (1) Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. Main Street believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income and other earnings measures presented in accordance with U.S. GAAP. Instead, distributable net investment income in accordance with U.S. GAAP is non-celled of net investment income in accordance with U.S. GAAP to distributable net investment income is detailed in the financial tables included with this press release.
- (2) Portfolio company financial information has not been independently verified by Main Street.

### (3) These credit statistics exclude certain portfolio companies for which EBITDA is not a meaningful metric for the statistic.

#### ABOUT MAIN STREET CAPITAL CORPORATION

Main Street (www.mainstcapital.com) is a principal investment firm that primarily provides long-term debt and equity capital to lower middle market companies and debt capital to middle market companies. Main Street's portfolio investments are typically made to support management buyouts, recapitalizations, growth financings, refinancings and acquisitions of companies that operate in diverse industry sectors. (1) Distributable net investment income is net investment income, as determined in accordance with U.S. GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. Main Street believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure of information for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income and other earnings measures presented in accordance with U.S. GAAP. Instead, distributable net investment income in accordance with u.S. GAAP to distributable net investment income is persented in the table above.
