- Total investment income of \$132.2 million
- An industry leading position in cost efficiency, with a ratio of total non-interest operating expenses as a percentage of quarterly average total assets (“Operating Expenses to Assets Ratio”) of 1.3% on an annualized basis for the quarter and for the trailing twelve-month (“TTM”) period ended June 30, 2024
- Net increase in net assets resulting from operations of \$102.7 million (or \$1.19 per share)
- Return on equity<sup>(2)</sup> of 16.1% on an annualized basis for the quarter and 18.5% for the TTM period ended June 30, 2024
- Net asset value of \$29.80 per share as of June 30, 2024, representing an increase of \$0.26 per share, or 0.9%, compared to \$29.54 per share as of March 31, 2024, and \$0.60 per share, or 2.1%, compared to \$29.20 per share as of December 31, 2023
- Declared regular monthly dividends totaling \$0.735 per share for the third quarter of 2024, or \$0.245 per share for each of July, August and September 2024, representing a 6.5% increase from the regular monthly dividends paid in the third quarter of 2023

- Declared and paid a supplemental dividend of \$0.30 per share, resulting in total dividends paid in the second quarter of 2024 of \$1.02 per share and representing a 13.3% increase from the total dividends paid in the second quarter of 2023
- Completed \$154.5 million in total lower middle market (“LMM”) portfolio investments, including investments totaling \$87.9 million in three new LMM portfolio companies, which after aggregate repayments of debt principal and return of invested equity capital from several LMM portfolio investments and a decrease in cost basis due to a realized loss on a LMM equity investment resulted in a net increase of \$69.0 million in the total cost basis of the LMM investment portfolio
- Completed \$323.8 million in total private loan portfolio investments, which after aggregate repayments of debt principal from several private loan portfolio investments resulted in a net increase of \$224.9 million in the total cost basis of the private loan investment portfolio
- Net decrease of \$66.1 million in the total cost basis of the middle market investment portfolio
- Further diversified our capital structure by issuing \$300.0 million of 6.50% senior unsecured notes due June 4, 2027 (the “June 2027 Notes”)
- Amended our Corporate Facility (as defined in the *Liquidity and Capital Resources* section below) to increase the total commitments from \$995.0 million to \$1.110 billion, extended the maturity date to June 2029 on \$1.035 billion of the total revolving commitments and expanded and diversified the lender group to 19 participating lenders

In commenting on the Company’s operating results for the second quarter of 2024, Dwayne L. Hyzak, Main Street’s Chief Executive Officer, stated, “We are pleased with our performance in the second quarter, which resulted in another quarter of strong operating results highlighted by a return on equity of 16.1%, distributable net investment income per share that continued to exceed the dividends paid to our shareholders and a new record for net asset value per share for the eighth consecutive quarter. We believe that these continued strong results demonstrate the sustainable strength of our overall platform, the benefits of our differentiated and diversified investment strategies, the unique contributions of our asset management business and the continued underlying strength and quality of our portfolio companies. We are also pleased that we generated continued growth in both our lower middle market and private loan investment portfolios and ended the quarter with attractive investment pipelines in both investment strategies, which we expect will be beneficial in the future.”

Mr. Hyzak continued, “The total dividends paid to our shareholders in the second quarter of 2024 increased by 13% when compared to the second quarter of last year, continuing our trend of increasing the dividends paid to our shareholders over the past few years. Our distributable net investment income in the second quarter exceeded the dividends paid to our shareholders, with our distributable net investment income exceeding the monthly dividends paid to our shareholders by 49% and the total dividends paid to our shareholders by 5%. In addition, our strong second quarter results and favorable outlook for the third quarter resulted in the declaration of a \$0.30 per share supplemental dividend to be paid in September 2024, representing our twelfth consecutive quarterly supplemental dividend, to go with the eight increases to our regular monthly dividends since the fourth quarter of 2021. Additionally, with the continued support from our long-term lender relationships as evidenced by our recent extension and expansion of our Corporate Facility, and the benefits of our second investment grade debt offering this year in June 2024, we continue to maintain very strong liquidity and a conservative leverage profile, which we believe is important in the current economic environment, and we remain excited about the current opportunities in both our lower middle market and private loan investment strategies.”

## Second Quarter 2024 Operating Results

The following table provides a summary of our operating results for the second quarter of 2024:

	Three Months Ended June 30,			
	2024	2023	Change (\$)	Change (%)
Interest income	\$ 100,031	\$ 97,273	\$ 2,758	3 %
Dividend income	26,688	25,599	1,089	4 %
Fee income	5,435	4,711	724	15 %
Total investment income	\$ 132,154	\$ 127,583	\$ 4,571	4 %
Net investment income	\$ 87,300	\$ 85,728	\$ 1,572	2 %
Net investment income per share	\$ 1.01	\$ 1.06	\$ (0.05)	(5) %
Distributable net investment income <sup>(1)</sup>	\$ 92,286	\$ 90,328	\$ 1,958	2 %
Distributable net investment income per share <sup>(1)</sup>	\$ 1.07	\$ 1.12	\$ (0.05)	(4) %
Net increase in net assets resulting from operations	\$ 102,688	\$ 106,516	\$ (3,828)	(4) %
Net increase in net assets resulting from operations per share	\$ 1.19	\$ 1.32	\$ (0.13)	(10) %

The \$4.6 million increase in total investment income in the second quarter of 2024 from the comparable period of the prior year was principally attributable to (i) a \$2.8 million increase in interest income, primarily due to higher average levels of income producing investment portfolio debt investments and an increase in interest rates on floating rate investment portfolio debt investments primarily resulting from increases in benchmark index rates, partially offset by an increase in non-accrual investments and (ii) a \$1.1 million increase in dividend income, primarily due to increased dividend income from certain of our LMM portfolio companies and an increase in dividend income from the External Investment Manager, partially offset by decreased dividend income from certain of our private loan portfolio companies and (iii) a \$0.7 million increase in fee income, primarily related to increased investment activity. The \$4.6 million increase in total investment income in the second quarter of 2024 is after the impact of a net decrease of \$1.6 million in certain income considered less consistent or non-recurring, primarily related to a \$1.6 million decrease in such dividend income, when compared to the same period in 2023.

Total cash expenses<sup>(3)</sup> increased \$2.6 million, or 7.0%, to \$39.9 million in the second quarter of 2024 from \$37.3 million for the same period in 2023. This increase in total cash expenses was principally attributable to (i) a \$2.4 million increase in interest expense and (ii) a \$0.9 million increase in general and administrative expense, partially offset by a \$0.5 million decrease in cash compensation expenses<sup>(3)</sup>. The increase in interest expense is primarily related to an increased weighted average interest rate on our debt obligations resulting from the addition of the March 2029 Notes and June 2027 Notes, repayment of the May 2024 Notes and an increased average interest rate on our Credit Facilities (defined below) due to increases in benchmark index rates. The decrease in cash compensation expenses<sup>(3)</sup> is primarily related to decreased incentive compensation accruals, partially offset by (i) increased headcount to support our growing investment portfolio and asset management activities and (ii) increased base compensation rates.

Non-cash compensation expenses<sup>(3)</sup> increased \$0.4 million in the second quarter of 2024 from the comparable period of the prior year, primarily driven by a \$0.8 million increase in share-based compensation, partially offset by a \$0.4 million decrease in deferred compensation expense.

Our Operating Expenses to Assets Ratio (which includes non-cash compensation expenses<sup>(3)</sup>) was 1.3% for the second quarter of 2024, on an annualized basis, as compared to 1.4% for the same period in 2023.

The \$1.6 million increase in net investment income and the \$2.0 million increase in distributable net investment income<sup>(1)</sup> in the second quarter of 2024 from the comparable period of the prior year were both principally attributable to the increase in total investment income, partially offset by increased expenses, each as discussed above. Net investment income and distributable net investment income<sup>(1)</sup> on a per share basis for the second quarter of 2024 both decreased by \$0.05 per share, compared to the second quarter of 2023, to \$1.01 per share and \$1.07 per share, respectively. These decreases include the impact of a 6.7% increase in the weighted-average shares outstanding compared to the second quarter of 2023 primarily due to shares issued since the beginning of the comparable period of the prior year through our (i) at-the-market (“ATM”) equity issuance program, (ii) dividend reinvestment plan and (iii) equity incentive plans. Net investment income and distributable net investment income<sup>(1)</sup> on a per share basis in the second quarter of 2024 included a net decrease of \$0.02 per share resulting from a decrease in investment income, in both cases considered less consistent or non-recurring in nature compared to the second quarter of 2023, as discussed above.

The \$102.7 million net increase in net assets resulting from operations in the second quarter of 2024 represents a \$3.8 million decrease from the second quarter of 2023. This decrease was primarily the result of (i) a \$81.9 million decrease in net unrealized appreciation from portfolio investments (including the impact of accounting reversals relating to realized gains/income (losses)) and (ii) a \$2.4 million increase in income tax provision, partially offset by (i) a \$78.9 million increase in net realized gain from investments resulting from a net realized gain of \$3.4 million in the second quarter of 2024 compared to a net realized loss of \$75.5 million in the second quarter of 2023 and (ii) a \$1.6 million increase in net investment income. The \$3.4 million net realized gain from investments for the second quarter of 2024 was primarily the result of a \$10.4 million realized gain on the partial exit of a LMM investment, partially offset by (i) a \$4.4 million realized loss on the partial exit of a middle market investment, (ii) a \$2.5 million realized loss on the full exit of a LMM investment.

The following table provides a summary of the total net unrealized appreciation of \$23.0 million for the second quarter of 2024:

	Three Months Ended June 30, 2024				
	LMM (a)	Private Loan	Middle Market	Other	Total
	(dollars in millions)				
Accounting reversals of net unrealized (appreciation) depreciation recognized in prior periods due to net realized (gains / income) losses recognized during the current period	\$ (8.7)	\$ (0.6)	\$ 4.8	\$ (0.3)	\$ (4.8)
Net unrealized appreciation (depreciation) relating to portfolio investments	16.6	(1.1)	4.8	7.5	(b) 27.8
Total net unrealized appreciation (depreciation) relating to portfolio investments	\$ 7.9	\$ (1.7)	\$ 9.6	\$ 7.2	\$ 23.0

(a) LMM includes unrealized appreciation on 33 LMM portfolio investments and unrealized depreciation on 26 LMM portfolio investments.

(b) Includes (i) \$6.1 million of net unrealized appreciation related to the other portfolio, (ii) \$1.3 million of unrealized appreciation related to the External Investment Manager and (iii) \$0.1 million of net unrealized appreciation related to the assets of the deferred compensation plan.

- \$350.0 million of notes outstanding that bear interest at a rate of 6.95% per year (the “March 2029 Notes”). The March 2029 Notes mature on March 1, 2029 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.

- \$300.0 million of the June 2027 Notes outstanding that bear interest rate at 6.50% per year. The June 2027 Notes mature on June 4, 2027 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.
- \$286.2 million of outstanding Small Business Investment Company (“SBIC”) debentures through our wholly owned SBIC subsidiaries. These debentures, which are guaranteed by the U.S. Small Business Administration (the “SBA”), had a weighted-average annual fixed interest rate of 2.82% and mature ten years from original issuance. The first maturity related to our existing SBIC debentures occurs in the first quarter of 2027, and the weighted-average remaining duration was 5.1 years. Under our SBIC licenses and subject to the approval of the SBA, we maintain the capacity for \$63.8 million of additional debentures up to the total of \$350.0 million of SBIC debentures that are available to SBIC license holders under common control.
- \$150.0 million of notes outstanding that bear interest at a weighted average rate of 7.74% per year (the “December 2025 Notes”). The December 2025 Notes mature on December 23, 2025 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.
- We maintain investment grade debt ratings from each of Fitch Ratings and S&P Global Ratings, both of which have assigned us investment grade corporate and credit ratings of BBB- with a stable outlook. S&P Global Ratings affirmed their rating during the third quarter of 2024.
- Our net asset value totaled \$2.6 billion, or \$29.80 per share.

After quarter end, we have received approval from the SBA for the \$63.8 million of additional SBIC funding which we expect to draw in the third quarter of 2024.

### **Investment Portfolio Information as of June 30, 2024<sup>(a)</sup>**

The following table provides a summary of the investments in our LMM portfolio, private loan portfolio and middle market portfolio as of June 30, 2024:

	As of June 30, 2024		
	LMM (a)	Private Loan	Middle Market
	(dollars in millions)		
Number of portfolio companies	83	92	19
Fair value	\$ 2,440.0	\$ 1,747.5	\$ 184.0
Cost	\$ 1,920.9	\$ 1,768.0	\$ 220.6
Debt investments as a % of portfolio (at cost)	72.6 %	95.4 %	88.3 %
Equity investments as a % of portfolio (at cost)	27.4 %	4.6 %	11.7 %
% of debt investments at cost secured by first priority lien	99.2 %	99.9 %	98.6 %
Weighted-average annual effective yield (b)	13.0 %	12.8 %	13.0 %
Average EBITDA (c)	\$ 9.3	\$ 32.3	\$ 57.7

(a) We had equity ownership in all of our LMM portfolio companies, and our average fully diluted equity ownership in those portfolio companies was 39%.

(b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost, including amortization of deferred debt origination fees

and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status.

- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the private loan and middle market portfolios. These calculations exclude certain portfolio companies, including four LMM portfolio companies, four private loan portfolio companies and three middle market companies, as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate.

The fair value of our LMM portfolio company equity investments was 206% of the cost of such equity investments, and our LMM portfolio companies had a median net senior debt (senior interest-bearing debt through our debt position less cash and cash equivalents) to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio of 2.8 to 1.0 and a median total EBITDA to senior interest expense ratio of 2.4 to 1.0. Including all debt that is junior in priority to our debt position, these median ratios were 2.9 to 1.0 and 2.4 to 1.0, respectively.<sup>(4)(5)</sup>

As of June 30, 2024, our investment portfolio also included:

- Other portfolio investments in 14 entities, collectively totaling \$179.5 million in fair value and \$175.0 million in cost basis, which comprised 3.8% and 4.3% of our investment portfolio at fair value and cost, respectively; and
- Our investment in the External Investment Manager, with a fair value of \$186.6 million and a cost basis of \$29.5 million, which comprised 3.9% and 0.7% of our investment portfolio at fair value and cost, respectively.

As of June 30, 2024, non-accrual investments comprised 1.2% of the total investment portfolio at fair value and 3.6% at cost, and our total portfolio investments at fair value were 115% of the related cost basis.

#### **External Investment Manager**

MSC Adviser I, LLC is our wholly owned portfolio company and registered investment adviser that provides investment management services to external parties (the “External Investment Manager”). We share employees with the External Investment Manager and allocate costs related to such shared employees and other operating expenses to the External Investment Manager. The total contribution of the External Investment Manager to our net investment income consists of the combination of the expenses we allocate to the External Investment Manager and the dividend income we earn from the External Investment Manager. During the second quarter of 2024, the External Investment Manager earned \$5.9 million of management fee income, an increase of \$0.3 million from the second quarter of 2023, and incentive fees of \$4.1 million, an increase of \$0.5 million from the second quarter of 2023. In addition, we allocated \$5.9 million of total expenses to the External Investment Manager, an increase of \$0.2 million from the second quarter of 2023. The increase in management fee income was attributable to an increase in assets under management. The increase in incentive fees was attributable to the favorable performance and improved operating results from the assets managed for clients. The increase in expenses allocated to the External Investment Manager was primarily related to increased overall operating costs at Main Street, an increase in assets under management

and the positive operating results from the assets managed for clients. The combination of the dividend income we earned from the External Investment Manager and expenses we allocated to it resulted in a total contribution to our net investment income of \$9.2 million, representing an increase of \$0.7 million from the second quarter of 2023.

We continue to execute our fund-raising activities of limited partner commitments for our second private loan fund managed by the External Investment Manager and held a subsequent closing in June 2024. This fund is exclusively focused on investments in our private loan investment strategy and provides us an additional opportunity for continued growth of the benefits from the External Investment Manager.

The External Investment Manager ended the second quarter of 2024 with total assets under management of \$1.6 billion.

**Endnotes**

- (1) Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impact of non-cash compensation expenses<sup>(3)</sup>. Main Street believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure for analyzing its financial performance since non-cash compensation expenses<sup>(3)</sup> do not result in a net cash impact to Main Street upon settlement. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing Main Street's financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income is detailed in the financial tables included with this press release.
- (2) Return on equity equals the net increase in net assets resulting from operations divided by the average quarterly total net assets for the three month and trailing twelve-month periods ended June 30, 2024.
- (3) Non-cash compensation expenses consist of (i) share-based compensation and (ii) deferred compensation expense or benefit, both of which are non-cash in nature. Share-based compensation does not require settlement in cash. Deferred compensation expense or benefit does not result in a net cash impact to Main Street upon settlement. The appreciation (depreciation) in the fair value of deferred compensation plan assets is reflected in Main Street's Consolidated Statements of Operations as unrealized appreciation (depreciation) and an increase (decrease) in compensation expenses, respectively. Cash compensation expenses are total compensation expenses as determined in accordance with U.S. GAAP, less non-cash compensation expenses. Total cash expenses are total expenses, as determined in accordance with U.S. GAAP, excluding non-cash compensation expenses. Main Street believes presenting cash compensation expenses, non-cash compensation expenses and total cash expenses is useful and appropriate supplemental disclosure for analyzing its financial performance since non-cash compensation expenses do not result in a net cash impact to Main Street upon settlement. However, cash compensation expenses, non-cash compensation expenses and total cash expenses are non-U.S. GAAP measures and should not be considered as a replacement for compensation expenses, total expenses or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing Main Street's financial performance. A reconciliation of compensation expenses and total expenses in accordance with U.S. GAAP to cash compensation expenses, non-cash compensation expenses and total cash expenses is detailed in the financial tables included with this press release.

- (5) These credit statistics exclude portfolio companies on non-accrual or for which EBITDA is not a meaningful metric.
