Main Street Capital Corporation

Corporate Overview and Investment Strategy

4th Quarter – 2024

MAIN is a Principal Investor in Private Debt and Equity

Focus on unique Lower Middle Market debt and equity investment strategy, Asset Management Business and internally managed operating structure differentiates MAIN from other investment firms

Internally-managed Business Development Company (BDC)

- IPO in 2007
- Over \$8.1 billion in capital under management⁽¹⁾
 - Over \$6.4 billion internally at MAIN⁽¹⁾
 - Over \$1.7 billion as the investment adviser to external parties⁽¹⁾

Primarily invests in the under-served Lower Middle Market (LMM)

- Targets companies with annual revenue between \$10 million and \$150 million and annual EBITDA between \$3 million and \$20 million
- Provides single source solutions, including a combination of first lien, senior secured debt and equity financing

Proprietary debt investments in privately held companies typically owned or being acquired by a private equity fund (Private Loans)

- Primarily originated directly by MAIN or, to a lesser extent, through strategic relationships with other investment funds
- First lien, senior secured debt investments
- Targets companies with annual revenue between \$25 million and \$500 million and annual EBITDA between \$7.5 million and \$50 million

Attractive asset management advisory business

Significant management ownership / investment in MAIN

Headquartered in Houston, Texas

(1) Capital under management includes undrawn portion of debt capital as of December 31, 2024

MAIN is a Principal Investor in Private Debt and Equity

MAIN's unique investment strategy, efficient operating structure and conservative capitalization are designed to provide sustainable, long-term growth in recurring monthly dividends, meaningful supplemental quarterly dividends and long-term capital appreciation to our shareholders

Long-term focus on delivering our shareholders sustainable growth in net asset value and recurring dividends per share

Consistent cash dividend yield – dividends paid monthly

- MAIN has never decreased its monthly dividend rate
- 127% increase in monthly dividends from \$0.33 per share paid in Q4 2007⁽¹⁾ to declared dividends of \$0.75 per share for Q2 2025
- Supplemental dividends, paid or declared, in addition to monthly dividends, of \$1.20 per share during the last twelve months⁽²⁾

Owns two Small Business Investment Company (SBIC) Funds

- Main Street Mezzanine Fund (2002 vintage) and Main Street Capital III (2016 vintage)
- Provides access to 10-year, low cost, fixed rate U.S. government-backed leverage

Strong capitalization and liquidity position – stable, long-term debt and significant available liquidity to take advantage of opportunities

- Favorable opportunities in capital markets through issuer investment grade ratings of BBB-/Stable from Fitch Ratings and BBB-/Stable from Standard & Poor's Global Ratings
- Total SBIC debentures regulatory financing capacity of \$350.0 million, the maximum amount permitted under current U.S. Small Business Administration (SBA) regulations

(1) MAIN's Initial Public Offering, or IPO, occurred in October 2007

(2) Includes dividends paid or declared as of February 28, 2025

MAIN is a Principal Investor in Private Debt and Equity

Focus on LMM equity investments and efficient operating structure differentiates MAIN and provides opportunity for significant total returns for our shareholders

Equity investments in LMM portfolio provide the opportunity to grow net asset value (NAV) per share and generate recurring dividend income and periodic realized gains to support MAIN's dividend growth

- NAV growth of \$18.80 per share (or 146%) since 2007
- Cumulative net realized gains from LMM portfolio investments of \$120.3 million since MAIN's initial public offering⁽¹⁾
- Approximately \$6.39 per share in cumulative, pre-tax net unrealized appreciation on LMM portfolio as of December 31, 2024
- Realized gains provide opportunities for additional returns in excess of net investment income

Internally managed operating structure provides significant operating leverage

- Favorable ratio of total expenses, excluding interest expense, to average total assets of approximately 1.3%⁽²⁾
- Greater portion of gross portfolio returns are delivered to our shareholders
- Attractive and growing Asset Management Business benefits MAIN's shareholders
- Significant positive impact to Net Investment Income (NII)
- Alignment of interests between MAIN management and our shareholders

(1) MAIN's Initial Public Offering, or IPO, occurred in October 2007

(2) Based upon the year ended December 31, 2024

MAIN Strategy Produces Differentiated Returns

Enhanced Value Proposition - Three Ways to Win are Better Than One

1. Sustain and Grow Dividends

- Efficient operating structure provides operating leverage to grow Distributable Net Investment Income (DNII)⁽¹⁾, and dividends paid, as investment portfolio and total investment income grow
- 127% increase in monthly dividends from \$0.33 per share paid in Q4 2007⁽²⁾ to declared dividends of \$0.75 per share for Q2 2025
- Never decreased regular monthly dividends (including through 2008/2009 recession and 2020/2021 COVID-19 pandemic)
- Paid or declared \$44.725⁽³⁾ per share in total dividends since IPO⁽²⁾ at \$15.00 per share (\$37.785⁽³⁾ per share in regular dividends and \$6.94⁽³⁾ per share in supplemental dividends)
- Multi-faceted investment strategy supports growth of dividends over various cycles and markets

2. Meaningfully Grow Net Asset Value (NAV) Per Share

- \$12.85 as of December 31, 2007⁽²⁾ to \$31.65 as of December 31, 2024 – 146% growth; CAGR of 5.4%
- Represents incremental economic return to investors beyond dividends
- MAIN's debt-focused peers (which comprises most BDCs) have not been able to generate NAV per share growth through the cycles
- Unrealized appreciation is a good proxy for future dividend growth without the need for additional capital through growing portfolio dividend income and periodic harvesting of realized gains from equity investments
- Ability to grow NAV per share provides opportunity for MAIN share price appreciation and additional shareholder returns

3. Supplement Growth in DNII⁽¹⁾ with Periodic Realized Gains

- LMM equity component of investment strategy provides opportunity for meaningful realized gains (analogous to PIK income on debt investments from cash flow perspective, but more tax efficient and without cap on upside)
- Realized gains validate the quality of MAIN's unrealized appreciation on its LMM equity investments
- Realized gains can be retained for future reinvestment due to MAIN's unique tax structure or paid to shareholders as dividends

(1) See reconciliation of DNII per share to Net Investment Income per share on page 36 and Non-GAAP Information disclosures on page 46 of this presentation

(2) MAIN's Initial Public Offering, or IPO, occurred in October 2007

(3) Includes dividends paid or declared as of February 28, 2025

Historical Monthly Dividends, NAV and DNII⁽¹⁾ Per Share

MAIN's unique focus on LMM equity investments provides the opportunity for significant NAV per share growth

MAIN's efficient operating structure provides significant operating leverage, greater dividends and greater overall returns for our shareholders

- In addition to the monthly dividends above, 7 per share of supplemental dividends have been paid or declared since 2007 IPO⁽²⁾
- Annual return on equity averaging 14.2% from 2010 through the fourth quarter of 2024

(1) See reconciliation of DNII per share to Net Investment Income per share on page 36 and Non-GAAP Information disclosures on page 46 of this presentation

(2) Includes dividends paid or declared as of February 28, 2025

LMM Investment Strategy

LMM investment strategy differentiates MAIN from its competitors and provides attractive risk-adjusted returns

MAIN's permanent capital structure as a publicly traded investment firm allows MAIN to maintain a long-term to permanent expected holding period for its LMM investments, providing significant benefits to both MAIN and our LMM portfolio companies

Investment Objectives

- High cash yield from secured debt investments (12.4%⁽¹⁾ weighted-average cash coupon as of December 31, 2024); plus
- Dividend income, fair value appreciation and periodic capital gains from equity investments

Investments are structured for (i) protection of capital, (ii) high recurring income and (iii) meaningful capital gain opportunity

Focus on self-sponsored, "one-stop" financing opportunities

- Partner with business owners, management teams and entrepreneurs
- Provide highly customized financing solutions
- Recapitalization, buyout, growth and acquisition capital
- Extensive network of grass roots referral sources
- Strong and growing "Main Street" brand recognition / reputation

Investments have low correlation to the broader debt and equity markets and attractive risk-adjusted returns

Unique LMM strategy, combined with MAIN's perpetual capital structure and goal to be long-term partners, results in a highly diversified and high-quality investment portfolio

(1) Weighted-average cash coupon is calculated using the applicable cash interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; excludes amortization of deferred debt origination fees and accretion of original issue discount, any fees payable upon repayment of the debt investment and any debt investments on non-accrual status

LMM Investment Opportunity

MAIN targets LMM investments in established, profitable companies

Characteristics of LMM provide beneficial risk-reward investment opportunities

Large and critical portion of U.S. economy

- 195,000+ domestic LMM businesses⁽¹⁾

LMM is under-served from a capital perspective and less competitive

Inefficient asset class generates pricing inefficiencies

- Typical entry enterprise values between 4.5X – 6.5X EBITDA
- Typical entry leverage multiples between 2.0X – 4.0X EBITDA to MAIN debt investment

Partner relationship with the management teams of our portfolio companies vs a “commoditized vendor of capital”

(1) Source: U.S. Census 2017 – U.S. Data Table by Enterprise Receipt Size; 2017 County Business Patterns and 2017 Economic Census; includes Number of Firms with Enterprise Receipt Size between \$10,000,000 and \$99,999,999

Private Loan Investment Strategy

Private Loan portfolio investments are primarily debt investments in privately held companies which have primarily been originated directly by MAIN or, to a lesser extent, through strategic relationships with other credit funds on a collaborative basis (often referred to in the debt markets as “club deals” because of the small lender group size)

MAIN’s Private Loan investments are typically made to a company owned by or being acquired by a private equity fund

Investment Objectives

- Access proprietary investments with attractive risk-adjusted return characteristics
- Generate cash yield to support MAIN’s monthly dividend

Investment Characteristics

- Targets companies with annual revenue between \$25 million and \$500 million and annual EBITDA between \$7.5 million and \$50 million
- Proprietary investments primarily originated directly by MAIN or, to a lesser extent, through strategic relationships with other investment funds on a collaborative basis
- Current Private Loan portfolio companies have weighted-average EBITDA of approximately \$30.5 million⁽¹⁾

Investments in secured debt investments

- First lien, senior secured debt investments
- Floating rate debt investments

9% – 14% targeted gross yields

- Weighted-average effective yield of 11.8%⁽²⁾
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide matching with MAIN’s floating rate Credit Facilities⁽³⁾

(1) This calculation excludes five Private Loan portfolio companies as EBITDA is not a meaningful metric for these portfolio companies

(2) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(3) The defined term and additional details for the Credit Facilities are included on page 40

Asset Management Business

MAIN's Asset Management Business (AMB) represents additional income diversification and the opportunity for greater shareholder returns

MAIN's internally managed operating structure provides MAIN's shareholders the benefits of this AMB

Growth of AMB is primarily driven by MAIN's Private Loan investment strategy

MAIN⁽¹⁾ is the investment adviser to several third party clients in its AMB

MAIN⁽¹⁾ is the investment adviser to and administrator of MSC Income Fund, Inc. (NYSE: MSIF), a publicly traded BDC solely focused on MAIN's Private Loan investment strategy⁽²⁾

- MAIN⁽¹⁾ provides asset management services, including sourcing, diligence and post-investment monitoring
- MAIN⁽¹⁾ receives management fees and incentive fees
 - Base management fee of 1.50% of total assets⁽²⁾
 - Incentive fees – 17.5% of net investment income above a hurdle rate with a 50% / 50% "catch-up" provision and 17.5% of net realized capital gains⁽²⁾

MAIN⁽¹⁾ is the investment adviser and administrator to two private funds and separately managed accounts, each of which is solely focused on MAIN's Private Loan investment strategy

Benefits to MAIN

- Highly predictable source of recurring base management fee income, with opportunity for upside through incentive fees
- No significant increases to MAIN's operating costs to provide services (utilize existing infrastructure and investment capabilities and leverage fixed costs)
- Monetizing the value of MAIN franchise
- Significant positive impact on MAIN's financial results
 - \$8.7 million contribution to net investment income in the fourth quarter of 2024⁽³⁾
 - \$34.3 million contribution to net investment income in the year ended December 31, 2024⁽³⁾
 - \$33.4 million contribution to net investment income in the year ended December 31, 2023⁽³⁾
 - \$216.5 million of cumulative unrealized appreciation as of December 31, 2024

(1) Through MSC Adviser I, LLC (the External Investment Manager), MAIN's wholly-owned unconsolidated subsidiary

(2) In January 2025, MSIF completed a listing and follow-on equity offering of its shares of common stock; effective upon such listing, MSIF (a) changed its investment strategy to be solely focused on co-investing with MAIN in its Private Loan investment strategy and (b) entered into an amended and restated investment advisory agreement with the External Investment Manager to, among other things, (i) reduce the annual base management fee from 1.75% to 1.50% of its average total assets, (ii) reduce the subordinated incentive fee on income on pre-incentive fee net investment income above a specified hurdle rate from 20.0% to 17.5% and (iii) reduce the incentive fee on cumulative net realized capital gains from 20.0% to 17.5% with such cumulative net realized capital gains measured from MSIF's listing date

(3) Contribution to Net Investment Income includes (a) dividend income received by MAIN from the External Investment Manager and (b) operating expenses allocated from MAIN to the External Investment Manager

MAIN Regulatory Framework

Highly regulated structure provides significant advantages and protections to our shareholders, including investment transparency, tax efficiency and beneficial leverage

Operates as a Business Development Company

- Regulated by the SEC - 1940 Act
- Publicly-traded, private investment company

Regulated Investment Company (RIC) tax structure

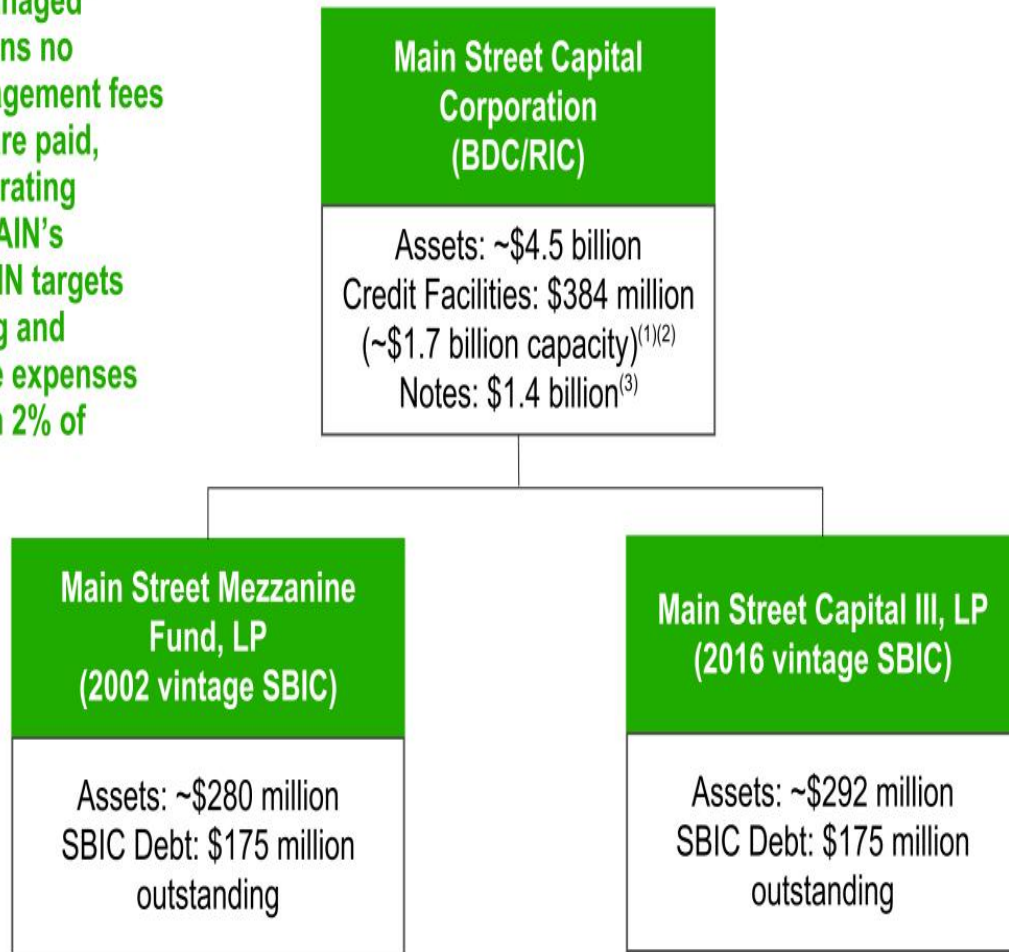

- Eliminates corporate level income tax
- Efficient tax structure providing high yield to investors
- Passes through qualified dividends and capital gains to investors

Small Business Investment Company (SBIC) subsidiaries

- Regulated by the SBA
- Access to low cost, fixed rate, long-term leverage guaranteed by the U.S. government
- Total SBIC debenture regulatory financing capacity of \$350.0 million
- Total outstanding leverage of \$350.0 million through two wholly-owned SBIC funds
- MAIN is a previous SBIC of the Year Award recipient

MAIN Corporate Structure – Internally Managed

“Internally managed” structure means no external management fees or expenses are paid, providing operating leverage to MAIN’s business; MAIN targets total operating and administrative expenses at or less than 2% of assets

(1) The defined term and additional details for the Credit Facilities are included on page 40

(2) As of December 31, 2024, MAIN's Credit Facilities had \$1.7 billion in total commitments; MAIN's Credit Facilities include accordion features which could increase total commitments up to \$2.5 billion

(3) Includes \$500.0 million of July 2026 Notes, \$400.0 million of June 2027 Notes, \$350.0 million of March 2029 Notes and \$150.0 million of December 2025 Notes

Monthly Dividends Per Share – Sustainable Growth

Recurring monthly dividend has never been decreased and has grown meaningfully (127%) since IPO⁽¹⁾

Based upon the most recently declared monthly dividends, the annual effective yield on MAIN's stock is 5.0%⁽²⁾

Based upon the most recently declared monthly dividends and supplemental dividend, the annual effective yield on MAIN's stock is 7.0%⁽³⁾

MAIN has also paid or declared supplemental dividends of \$6.94⁽⁴⁾ per share since IPO⁽¹⁾

Cumulative dividends paid or declared, including supplemental dividends, since IPO⁽¹⁾ (at \$15.00 per share) through second quarter of 2025 equal \$44.725 per share⁽⁴⁾

Trailing Twelve Months Monthly Dividends Per Share

(1) Initial Public Offering, or IPO, in October 2007

(2) As of and based upon the closing market price on February 26, 2025 of \$59.58 per share and the annualized most recently declared monthly dividends

(3) As of and based upon the closing market price on February 26, 2025 of \$59.58 per share and the annualized most recently declared monthly dividends and supplemental dividend

(4) Based upon dividends which have been paid or declared as of February 28, 2025

Total Dividends per Share – Significant Incremental Value to Shareholders

MAIN's dividend policy includes an expectation for consistent annual growth of its monthly dividends and meaningful coverage of such monthly dividends with recurring Distributable Net Investment Income (DNII)⁽³⁾

MAIN's dividend policy includes an expectation for meaningful supplemental dividends to the extent DNII⁽³⁾ significantly exceeds the monthly dividends

MAIN's dividend policy is intended to provide MAIN's shareholders significant comfort regarding the recurring nature of MAIN's monthly dividends and visibility to additional significant value through MAIN's supplemental dividends

Trailing Twelve Months Total Dividends Per Share

- (1) Includes monthly dividends which have been paid or declared for payment on or before March 31, 2025; in February 2025, we also declared regular monthly dividends of \$0.75 per share to be paid in Q2 2025
- (2) Includes supplemental dividends which have been declared as of February 28, 2025
- (3) See reconciliation of DNII per share to Net Investment Income per share on page 36 and Non-GAAP Information disclosures on page 46 of this presentation

LMM Investment Portfolio

LMM investment portfolio consists of a diversified mix of secured debt and lower cost basis equity investments

MAIN's long-term to permanent expected holding period for its LMM investments enhances the diversity and quality of its LMM investment portfolio

84 portfolio companies / \$2.5 billion in fair value

- 51% of total investment portfolio at fair value

Debt yielding 12.8%⁽¹⁾ (71% of LMM portfolio at cost)

- Over 99% of debt investments have first lien position
- 73% of debt investments earn fixed-rate interest
- Approximately 760 basis point net cash interest margin vs “matched” fixed interest rate on SBIC debentures and Notes Payable

Equity ownership in all LMM portfolio companies representing a 38% average ownership position (29% of LMM portfolio at cost)

- Lower entry multiple valuations, lower cost basis
- Opportunity for dividend income, fair value appreciation and periodic capital gains
- 66% of LMM portfolio companies⁽²⁾ with direct equity investment are currently paying dividends
- Fair value appreciation of equity investments supports Net Asset Value per share growth
- \$565.1 million, or \$6.39 per share, of cumulative pre-tax net unrealized appreciation as of December 31, 2024

(1) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

LMM Investment Portfolio

LMM investment portfolio is a pool of high quality, seasoned assets with attractive risk-adjusted return characteristics

MAIN's long-term to permanent expected holding period for its LMM investments significantly enhances the quality of MAIN's LMM investment portfolio and drives significant fair value appreciation

Median LMM portfolio credit statistics⁽¹⁾:

- Senior leverage of 2.7x EBITDA through MAIN's debt position
- 2.7x EBITDA to senior interest coverage
- Total leverage of 2.7x EBITDA including debt junior in priority to MAIN
- Free cash flow de-leveraging improves credit metrics and increases equity appreciation

Average investment size of \$29.8 million at fair value or \$23.1 million on a cost basis (less than 1% of total investment portfolio)

Opportunistic, selective posture toward new investment activity over the economic cycle

High quality, seasoned LMM portfolio

- MAIN has been invested in 26% (22 different companies) of its LMM portfolio companies for greater than 10 years (representing 11% of total cost basis and 18% of total fair value)
- Total LMM investment portfolio at fair value equals 129% of cost
- Equity component of LMM portfolio at fair value equals 208% of cost
- Majority of LMM portfolio companies have de-leveraged and have experienced equity appreciation
 - 57 LMM portfolio companies with unrealized appreciation on equity investments
 - Cumulative net unrealized appreciation on LMM equity investments of \$611.0 million

(1) These credit statistics exclude portfolio companies on non-accrual status and six companies for which EBITDA is not a meaningful metric

Fully Diluted Equity Ownership %⁽²⁾

(1) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(2) Percentages calculated based upon the number of LMM portfolio companies in each ownership category

Term and Total Interest Coupon of Existing LMM Debt Investments

Original Term⁽¹⁾

Total Interest Coupon⁽²⁾

Debt Investments generally have a 5-Year Original Term⁽¹⁾ and ~2.8 Year Weighted-Average Remaining Duration; Weighted-Average Effective Yield of 12.8%⁽⁴⁾ on LMM Debt Portfolio

- (1) Original terms can be extended if the portfolio company's objectives and performance align with MAIN's long-term to permanent holding period expectations, often providing significant growth and longer tenure to MAIN's debt investments
- (2) Interest coupon excludes amortization of deferred upfront fees, original issue discount, exit fees and any debt investments on non-accrual status
- (3) Floating interest rates generally include contractual minimum "floor" rates; interest rate of 12.6% is based on weighted-average principal balance of floating rate debt investments as of December 31, 2024
- (4) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

Private Loan Investment Portfolio

Private Loan investment portfolio provides a diversified mix of investments and sources of income to complement the LMM investment portfolio

91 investments / \$1.9 billion in fair value

- 39% of total investment portfolio at fair value

Average investment size of \$21.5 million⁽¹⁾ (less than 1% of total portfolio)

Investments in secured debt instruments

- 95%⁽¹⁾ of Private Loan portfolio is secured debt
- Over 99%⁽¹⁾ of Private Loan debt portfolio is first lien term debt

Debt yielding 11.8%⁽²⁾

- 97%⁽¹⁾ of Private Loan debt investments bear interest at floating rates⁽³⁾, providing matching with MAIN's floating rate Credit Facilities⁽⁴⁾
- Approximately 500 basis point effective interest margin vs "matched" floating rate on MAIN's Credit Facilities⁽⁴⁾

(1) As of December 31, 2024; based on cost

(2) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(3) Over 99% of floating interest rates on Private Loan debt investments are subject to contractual minimum "floor" rates

Efficient and Leverageable Operating Structure

MAIN's internally managed operating structure provides significant operating leverage and greater returns for our shareholders

“Internally managed” structure means no external management fees or expenses are paid

Alignment of interest between management and investors

- Greater incentives to maximize increases to shareholder value and rationalize debt and equity capital raises
- 100% of MAIN's management efforts and activities are for the benefit of MAIN investors

MAIN targets total operating expenses⁽¹⁾ as a percentage of average assets (Operating Expense to Assets Ratio) at or less than 2%

- Long-term actual results have significantly outperformed target
- An industry leading position in cost efficiency, with an Operating Expense to Assets Ratio of 1.3%⁽²⁾

Significant portion of total operating expenses⁽¹⁾ are non-cash

- Non-cash compensation expenses⁽³⁾ were 31.8%⁽²⁾ of total operating expenses⁽¹⁾
- Operating Expense to Assets Ratio of 0.9%⁽²⁾ excluding non-cash compensation expenses⁽³⁾

(1) Total expenses excluding interest expense

Stable, Long-Term Leverage – Significant Unused Capacity

MAIN maintains a conservative capital structure, with limited overall leverage and an intentional mix of secured, floating rate revolving debt and unsecured, fixed rate long-term debt

Capital structure is designed to correlate to and complement the expected duration and fixed/floating rate nature of investment portfolio assets

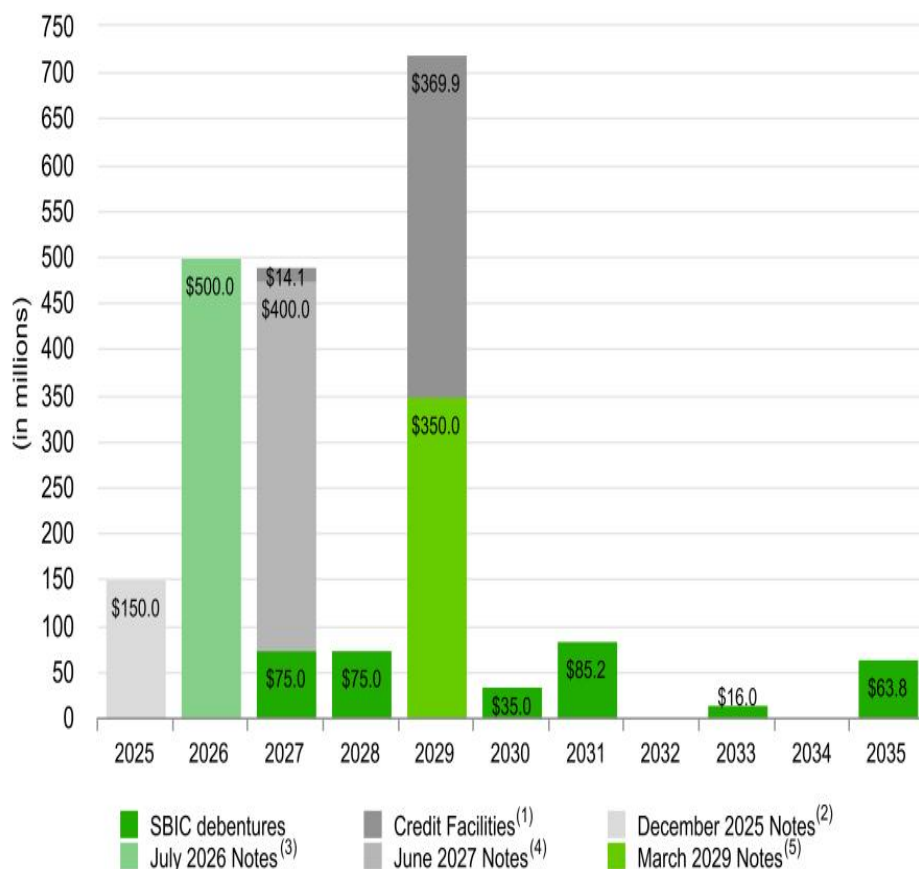

Facility	Interest Rate	Maturity	Principal Drawn

- (1) As of December 31, 2024, MAIN maintained a corporate revolving line of credit (the Corporate Facility), which had \$1.110 billion in total commitments with an accordion feature with the right to request an increase up to \$1.665 billion; MAIN's Corporate Facility is fully revolving until August 2026 and June 2028, with maturity dates in August 2027 and June 2029, on \$75.0 million and \$1.035 billion of commitments, respectively
- (2) As of December 31, 2024, MAIN maintained a secured special purpose vehicle financing facility (the SPV Facility), which had \$600.0 million in total commitments with an accordion feature with the right to request an increase up to \$800.0 million; MAIN's SPV Facility is fully revolving until September 2027, with a maturity date in September 2029
- (3) Borrowings under the Corporate Facility and the SPV Facility (together, the Credit Facilities) are available to provide additional liquidity for investment and operational activities
- (4) Credit Facilities' rates reflect the rate based on SOFR effective for the contractual reset date of January 1, 2025
- (5) The \$400.0 million of outstanding notes bear interest at 6.50% per year with a yield-to-maturity of 6.34%
- (6) Based upon \$100.0 million and \$50.0 million in aggregate principal amount bearing interest at 7.84% and 7.53%, respectively
- (7) MAIN's SBIC licenses provide for total SBIC debenture capacity of \$350.0 million

Long-term Maturity of Debt Obligations

MAIN's conservative capital structure provides long-term access to attractively-priced and structured debt facilities

- Allows for investments in assets with long-term holding periods / illiquid positions and greater yields and overall returns
- Provides downside protection and liquidity through economic cycles
- Allows MAIN to be opportunistic during periods of economic uncertainty

(1) The defined term and additional details for the Credit Facilities are included on page 40

(2) Issued in December 2022, with a follow-on issuance in February 2023; redeemable at MAIN's option at any time, subject to certain make-whole provisions

(3) Issued in January 2021, with a follow-on issuance in October 2021; redeemable at MAIN's option at any time, subject to certain make-whole provisions

(4) Issued in June 2024, with a follow-on issuance in September 2024; redeemable at MAIN's option at any time, subject to certain make-whole provisions

(5) Issued in January 2024; redeemable at MAIN's option at any time, subject to certain make-whole provisions

Interest Rate Impact and Sensitivity

MAIN's financial results are subject to impact from changes in interest rates; MAIN's capital structure includes a majority of fixed rate debt obligations, while MAIN's investment portfolio includes a majority of floating rate debt investments with minimum interest rate floors

- 82% of MAIN's outstanding debt obligations have fixed interest rates⁽⁶⁾
- 68% of MAIN's debt investments bear interest at floating rates⁽⁶⁾, the majority of which contain contractual minimum index rates, or "interest rate floors" (weighted-average floor of approximately 130 basis points)⁽⁷⁾
- Results in increases in net investment income if market interest rates increase, and reductions to net investment income if market interest rates decrease

The following table illustrates the approximate annual changes in the components of MAIN's net investment income (NII) due to hypothetical increases (decreases) in interest rates⁽¹⁾⁽²⁾ (dollars in thousands, except per share data):

Basis Point Increase (Decrease) in Interest Rate	Increase (Decrease) in Interest Income	(Increase) Decrease in Interest Expense ⁽³⁾	Increase (Decrease) in NII from the External Investment Manager ⁽⁴⁾	Increase (Decrease) in NII	Increase (Decrease) in NII per Share ⁽⁵⁾

- (1) Assumes no changes in the portfolio investments, outstanding borrowings on the Credit Facilities (as defined on page 40) or other debt obligations existing as of December 31, 2024
- (2) Assumes that all SOFR and Prime rates would change effective immediately on the first day of the period; however, the actual contractual index rate reset dates will vary in future periods generally on either a monthly or quarterly basis across both our debt investments and our Credit Facilities resulting in a delay in the realization of the increases or decreases in interest income or expense
- (3) The hypothetical (increase) decrease in interest expense would be impacted by the changes in the amount of debt outstanding under our Credit Facilities, with interest expense (increasing) decreasing as the debt outstanding under our Credit Facilities increases (decreases)
- (4) The NII contribution from the External Investment Manager is based on the performance of the assets managed by the External Investment Manager which may fluctuate due to changes in interest rates and other factors impacting the return on such managed assets; this change in NII contribution only represents the impact of interest rate changes and assumes no change to all other factors
- (5) Per share amount is calculated using shares outstanding as of December 31, 2024
- (6) As of December 31, 2024, based on par
- (7) Weighted-average interest rate floor calculated based on debt principal balances as of December 31, 2024

Although we believe that this analysis is indicative of the impact of interest rate changes to our NII as of December 31, 2024, the analysis does not take into consideration future changes in the credit market, credit quality or other business or economic developments that could affect our NII. Accordingly, we can offer no assurances that actual results would not differ materially from the analysis above.

Significant Management and Board of Directors Ownership / Investment

Significant equity ownership by MAIN's management team and its Board of Directors, coupled with internally managed structure, provides alignment of interest between MAIN's management and our shareholders

- Additional dividend income through periodic supplemental dividends

Strong liquidity and stable capitalization for sustainable growth

Highly invested management team with successful track record

Niche investment strategy with lower correlation to broader debt / equity markets

Non-GAAP Information

Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impacts of non-cash compensation expenses (as defined below). MAIN believes presenting distributable net investment income and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Non-cash compensation expenses consist of (i) share-based compensation and (ii) deferred compensation expense or benefit, both of which are non-cash in nature. Share-based compensation does not require settlement in cash. Deferred compensation expense or benefit does not result in a net cash impact to MAIN upon settlement. The appreciation (depreciation) in the fair value of deferred compensation plan assets is reflected in MAIN's Consolidated Statements of Operations as unrealized appreciation (depreciation) and an increase (decrease) in compensation expenses, respectively. MAIN believes presenting non-cash compensation expenses is useful and appropriate supplemental disclosure for analyzing its financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, non-cash compensation expenses are non-U.S. GAAP measures and should not be considered as a replacement for compensation expenses, total expenses or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Net Debt to NAV Ratio is calculated as the Debt to NAV Ratio as determined in accordance with U.S. GAAP, except that total debt is reduced by cash and cash equivalents. The **Regulatory Debt to NAV Ratio** is calculated in the same manner as the Debt to NAV Ratio, except that outstanding SBIC debentures are excluded from the debt pursuant to an exemptive order MAIN received from the SEC. MAIN believes presenting the Net Debt to NAV Ratio is useful and appropriate supplemental disclosure for analyzing its financial position and leverage. MAIN believes presenting the Non-SBIC Debt to NAV Ratio is useful and appropriate supplemental disclosure because MAIN, a business development company, is permitted to exclude such borrowings from its regulatory asset coverage ratio calculation pursuant to an exemptive order received from the SEC. However, the Net Debt to NAV Ratio and the Non-SBIC Debt to NAV Ratio are non-U.S. GAAP measures and should not be considered as replacements for the Debt to NAV Ratio and other financial measures presented in accordance with U.S. GAAP. Instead, the Net Debt to NAV Ratio and the Non-SBIC Debt to NAV Ratio should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial position.

- Primarily originated directly by MAIN or, to a lesser extent, through strategic relationships with other investment funds
- Floating rate debt investments
- Proprietary investments that can be difficult for investors to access
- Investments with attractive risk-adjusted returns

Asset Management Business

- MAIN serves as the investment adviser to several third-party clients, including MSC Income Fund, Inc. (NYSE: MSIF), a publicly traded BDC solely focused on MAIN's Private Loan investment strategy
- Monetizing value of MAIN's intangible assets
- Significant contribution to net investment income
- Source of stable, recurring fee income
- Returns benefit MAIN stakeholders due to internally managed structure

Portfolio Highlights⁽¹⁾

The benefits of MAIN's unique investment strategy have resulted in a high quality, diversified and mature investment portfolio

Lower Middle Market

- \$2.5 billion of total investments
- 84 companies
- \$1.3 billion of debt investments (53%)
- \$1.2 billion of equity investments (47%)
- Typical initial investment target of 75% debt / 25% equity
- Over 99% of debt investments are first lien⁽²⁾
- Average investment size of \$29.8 million at fair value or \$23.1 million at cost
- Weighted-average effective yield on debt investments of 12.8%⁽³⁾

Private Loans

- \$1.9 billion of total investments

- Over 99% of debt investments are first lien⁽²⁾
- Average investment size of \$21.5 million⁽²⁾
- 97% of debt investments bear interest at floating rates⁽²⁾
- Weighted-average effective yield on debt investments of 11.8%⁽³⁾

Total Portfolio⁽⁴⁾⁽⁵⁾

- \$4.9 billion of total investments
- 222 companies and entities
- \$3.3 billion of debt investments (66%)
- \$1.7 billion of equity investments (34%)
- Over 99% of debt investments are first lien⁽²⁾
- 68% of debt investments bear interest at floating rates⁽²⁾
- Weighted-average effective yield on debt investments of 12.2%⁽³⁾

(1) As of December 31, 2024; investment amounts at fair value, unless otherwise noted

(2) As of December 31, 2024; based on cost

(3) As of December 31, 2024; weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(4) Includes Middle Market investments, as defined in MAIN's SEC filings, which comprise 3.1% of the total investment portfolio at fair value; MAIN has generally stopped making new Middle Market investments and expects the size of its Middle Market portfolio to decline in future periods as existing Middle Market investments are repaid or sold

(5) Includes \$246.0 million of fair value (\$29.5 million of cost basis) of equity investment relating to MAIN's wholly-owned unconsolidated subsidiary, MSC Adviser I, LLC (the External Investment Manager), and \$124.1 million of fair value (\$122.5 million of cost basis) of Other Portfolio debt and equity investments, as defined in MAIN's SEC filings

Business Development Company (BDC) Background

Created by Congress in 1980 through the Small Business Investment Incentive Act of 1980 to facilitate the flow of capital to small and mid-sized U.S. businesses

Highly regulated by the SEC under the Investment Company Act of 1940 (1940 Act)

Provide a way for individual investors to participate in debt and equity investments in private companies

Leverage

- Regulatory restrictions on debt leverage levels require BDCs to maintain conservative leverage
- Must maintain an asset to debt coverage ratio of at least 1.5x

Full Transparency

- Detailed schedule of all investments (and related key terms) in quarterly and annual reporting
- Quarterly fair value mark to market accounting

Income Tax Treatment

- As a Regulated Investment Company (RIC), BDCs generally do not pay corporate income taxes
- To maintain RIC status and avoid paying corporate income taxes, BDCs must distribute at least 90% of taxable income (other than net capital gain) to investors
- To avoid a 4% federal excise tax on undistributed income, BDCs must distribute in each calendar year the sum of (1) 98% of their net ordinary income for the calendar year and (2) 98.2% of their realized capital gains (both long-term and short-term)
- Tax treatment is similar to Real Estate Investment Trusts (REITs)

(3) Distributable Net Investment Income (DNII)⁽⁸⁾ + interest expense / interest expense for the year ended December 31, 2024

(4) Calculated as total assets divided by total debt at par

(5) Calculated per BDC regulations; SBIC Debentures are not included as "senior debt" for purposes of the BDC asset coverage requirements, and are thereby excluded from the Regulatory Asset Coverage Ratio and Regulatory Debt to NAV Ratio, pursuant to exemptive relief received by MAIN

(6) Debt to NAV Ratio is calculated based upon the par value of debt

(7) Net debt in this ratio includes par value of debt less cash and cash equivalents of \$26.6 million, \$51.6 million and \$78.3 million for the Non-SBIC, SBICs and Total, respectively

(8) See Non-GAAP Information disclosures on page 35 and reconciliation of DNII to Net Investment Income on page 37 of this presentation

Conservative Leverage – Regulatory

Passage of the Small Business Credit Availability Act in December 2017 provided the opportunity for BDCs to obtain board or shareholder approval to access additional leverage by lowering the required asset coverage to 1.50x

MAIN received shareholder approval, effective as of May 3, 2022, to adopt the 1.50x asset coverage ratio

MAIN has historically operated at conservative regulatory leverage levels, in all cases with significant cushion to the 1.50x regulatory limits, and has proven through historical performance that MAIN does not require access to additional leverage to generate market leading returns

MAIN's Historical Asset Coverage Ratio:	2019	2020	2021	2022	2023	2024
Consolidated Asset Coverage Ratio - Regulatory ⁽¹⁾	2.89x	2.67x	2.22x	2.27x	2.69x	2.56x

Current Minimum Required Asset Coverage ⁽²⁾	1.50x	1.50x	1.50x	1.50x	1.50x	1.50x
Cushion % above Current Minimum Required Asset Coverage	93%	78%	48%	51%	79%	71%

(1) Calculated per BDC regulations; SBIC Debentures are not included as "senior debt" for purposes of the Minimum Asset Coverage Ratio requirements pursuant to exemptive relief received by MAIN

(2) We received shareholder approval, effective as of May 3, 2022, to adopt the 1.5x asset coverage ratio (decreased from the previously required asset coverage ratio of 2.0x)

Conservative Leverage – Excess Collateral Improves Over Time

MAIN's conservative use of leverage and equity to fund its growth results in significant excess collateral that provides protection to lenders

MAIN's management of its capital structure results in a reduced risk profile for debt investors over time

Excess collateral available to unsecured lenders has increased by 311% since MAIN's first investment grade (IG) debt issuance

(\$ millions)	9/30/2014 ⁽¹⁾	12/31/2024
Total Assets Excluding SBIC Assets	\$ 1,137	\$ 4,549
Add: Equity Value of SBIC Entities ⁽²⁾	218	226
Total Collateral Available to Secured Lenders	\$ 1,355	\$ 4,775
Less: Secured Debt (Credit Facilities)	(287)	(384)
Excess Collateral Available to Unsecured Lenders	\$ 1,068	\$ 4,391
Increase since first IG debt issuance ⁽³⁾		311 %
Less: Unsecured Debt Outstanding (par value)	(91)	(1,400) ⁽⁴⁾
Remaining Excess Collateral Available to Unsecured Lenders	\$ 977	\$ 2,991
Increase since first IG debt issuance ⁽³⁾		206 %

(1) Most recent information publicly reported prior to first IG debt issuance

(2) Represents asset value in excess of SBIC debt (par value); SBIC assets contain a negative pledge in relation to SBIC debt; therefore, equity at SBIC entities is effectively collateral for lenders

(3) First IG notes issued in November 2014

(4) Includes additional IG debt issuances in January 2021, October 2021, December 2022, February 2023, January 2024, June 2024 and September 2024

(2) Based upon closing market price of \$58.58/share on December 31, 2024

Efficient and Leverageable Operating Structure

MAIN's internally managed operating structure provides significant operating leverage and greater returns for our stakeholders

“Internally managed” structure means no external management fees or expenses are paid

Alignment of interest between management and investors

- Greater incentives to maximize increases to shareholder value and rationalize debt and equity capital raises
- 100% of MAIN's management efforts and activities are for the benefit of MAIN investors

MAIN targets total operating expenses⁽¹⁾ as a percentage of average assets (Operating Expense to Assets Ratio) at or less than 2%

- Long-term actual results have significantly outperformed target
- An industry leading position in cost efficiency, with an Operating Expense to Assets Ratio of 1.3%⁽²⁾

Significant portion of total operating expenses⁽¹⁾ are non-cash

- Non-cash compensation expenses⁽³⁾ were 31.8%⁽²⁾ of total operating expenses⁽¹⁾
- Operating Expense to Assets Ratio of 0.9%⁽²⁾ excluding non-cash compensation expenses⁽³⁾

Stable, Long-Term Leverage – Significant Unused Capacity

MAIN maintains a conservative capital structure, with limited overall leverage and an intentional mix of secured, floating rate revolving debt and unsecured, fixed rate long-term debt

Capital structure is designed to correlate to and complement the expected duration and fixed/floating rate nature of investment portfolio assets

Facility	Interest Rate	Maturity	Principal Drawn
\$1.110 billion Corporate Facility ⁽¹⁾⁽³⁾	SOFR+1.875% floating (6.3% ⁽⁴⁾)	August 2027 June 2029 ⁽¹⁾	\$208.0 million
\$600.0 million SPV Facility ⁽²⁾⁽³⁾	SOFR+2.35% floating (6.7% ⁽⁴⁾)	September 2029	\$176.0 million
Notes Payable	3.00% fixed	Redeemable at MAIN's option at any time, subject to certain make whole provisions; Matures July 14, 2026	\$500.0 million
Notes Payable	6.50% ⁽⁵⁾ fixed	Redeemable at MAIN's option at any time, subject to certain make whole provisions; Matures June 4, 2027	\$400.0 million
Notes Payable	6.95% fixed	Redeemable at MAIN's option at any time, subject to certain make whole provisions; Matures March 1, 2029	\$350.0 million
Notes Payable	7.74% ⁽⁶⁾ fixed (weighted-average)	Redeemable at MAIN's option at any time, subject to certain make whole provisions; Matures December 23, 2025	\$150.0 million
SBIC Debentures ⁽⁷⁾	3.28% fixed (weighted-average)	Various dates between 2027 - 2035 (weighted-average duration = 5.6 years)	\$350.0 million

(1) As of December 31, 2024, MAIN maintained a corporate revolving line of credit (the Corporate Facility), which had \$1.110 billion in total commitments with an accordion feature with the right to request an increase up to \$1.665 billion; MAIN's Corporate Facility is fully revolving until August 2026 and June 2028, with maturity dates in August 2027 and June 2029, on \$75.0 million and \$1.035 billion of commitments, respectively

(2) As of December 31, 2024, MAIN maintained a secured special purpose vehicle financing facility (the SPV Facility), which had \$600.0 million in total commitments with an accordion feature with the right to request an increase up to \$800.0 million; MAIN's SPV Facility is fully revolving until September 2027, with a maturity date in September 2029

(3) Borrowings under the Corporate Facility and the SPV Facility (together, the Credit Facilities) are available to provide additional liquidity for investment and operational activities

(4) Credit Facilities' rates reflect the rate based on SOFR effective for the contractual reset date of January 1, 2025

(5) The \$400.0 million of outstanding notes bear interest at 6.50% per year with a yield-to-maturity of 6.34%

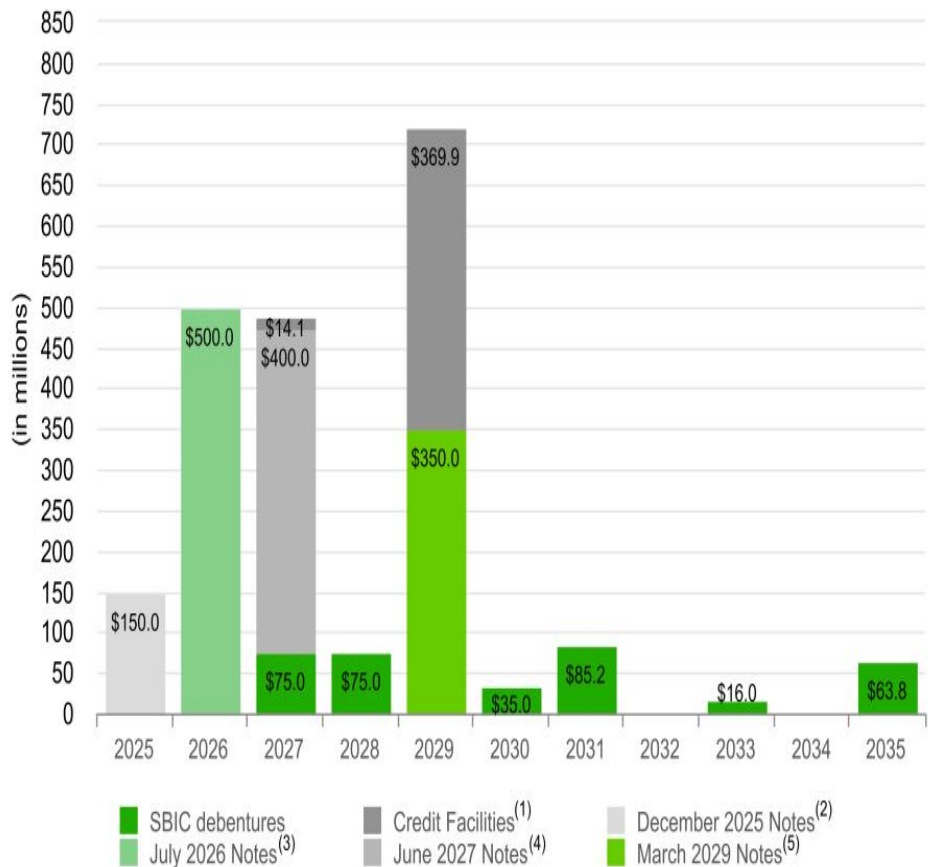

(6) Based upon \$100.0 million and \$50.0 million in aggregate principal amount bearing interest at 7.84% and 7.53%, respectively

(7) MAIN's SBIC licenses provide for total SBIC debenture capacity of \$350.0 million

Long-term Maturity of Debt Obligations

MAIN's conservative capital structure provides long-term access to attractively-priced and structured debt facilities

- Allows for investments in assets with long-term holding periods / illiquid positions and greater yields and overall returns
- Provides downside protection and liquidity through economic cycles
- Allows MAIN to be opportunistic during periods of economic uncertainty

(1) The defined term and additional details for the Credit Facilities are included on page 18
 (2) Issued in December 2022, with a follow-on issuance in February 2023; redeemable at MAIN's option at any time, subject to certain make-whole provisions
 (3) Issued in January 2021, with a follow-on issuance in October 2021; redeemable at MAIN's option at any time, subject to certain make-whole provisions
 (4) Issued in June 2024, with a follow-on issuance in September 2024; redeemable at MAIN's option at any time, subject to certain make-whole provisions
 (5) Issued in January 2024; redeemable at MAIN's option at any time, subject to certain make-whole provisions

Interest Rate Impact and Sensitivity

MAIN's financial results are subject to impact from changes in interest rates; MAIN's capital structure includes a majority of fixed rate debt obligations, while MAIN's investment portfolio includes a majority of floating rate debt investments with minimum interest rate floors

- 82% of MAIN's outstanding debt obligations have fixed interest rates⁽⁶⁾
- 68% of MAIN's debt investments bear interest at floating rates⁽⁶⁾, the majority of which contain contractual minimum index rates, or "interest rate floors" (weighted-average floor of approximately 130 basis points)⁽⁷⁾
- Results in increases in net investment income if market interest rates increase, and reductions to net investment income if market interest rates decrease

The following table illustrates the approximate annual changes in the components of MAIN's net investment income (NII) due to hypothetical increases (decreases) in interest rates⁽¹⁾⁽²⁾ (dollars in thousands, except per share data):

Basis Point Increase (Decrease) in Interest Rate	Increase (Decrease) in Interest Income	(Increase) Decrease in Interest Expense ⁽³⁾	Increase (Decrease) in NII from the External Investment Manager ⁽⁴⁾	Increase (Decrease) in NII	Increase (Decrease) in NII per Share ⁽⁵⁾
(100)	\$ (22,742)	\$ 3,840	\$ (2,765)	\$ (21,667)	(0.25)
(75)	(16,995)	2,880	(1,925)	(16,040)	(0.18)
(50)	(11,249)	1,920	(1,317)	(10,646)	(0.12)
(25)	(5,563)	960	(724)	(5,327)	(0.06)
25	5,496	(960)	568	5,104	0.06
50	10,993	(1,920)	1,136	10,209	0.12
75	16,489	(2,880)	1,565	15,174	0.17
100	21,987	(3,840)	1,679	19,826	0.22

- (1) Assumes no changes in the portfolio investments, outstanding borrowings on the Credit Facilities (as defined on page 18) or other debt obligations existing as of December 31, 2024
- (2) Assumes that all SOFR and Prime rates would change effective immediately on the first day of the period; however, the actual contractual index rate reset dates will vary in future periods generally on either a monthly or quarterly basis across both our debt investments and our Credit Facilities resulting in a delay in the realization of the increases or decreases in interest income or expense
- (3) The hypothetical (increase) decrease in interest expense would be impacted by the changes in the amount of debt outstanding under our Credit Facilities, with interest expense (increasing) decreasing as the debt outstanding under our Credit Facilities increases (decreases)
- (4) The NII contribution from the External Investment Manager is based on the performance of the assets managed by the External Investment Manager which may fluctuate due to changes in interest rates and other factors impacting the return on such managed assets; this change in NII contribution only represents the impact of interest rate changes and assumes no change to all other factors
- (5) Per share amount is calculated using shares outstanding as of December 31, 2024
- (6) As of December 31, 2024, based on par
- (7) Weighted-average interest rate floor calculated based on debt principal balances as of December 31, 2024

Although we believe that this analysis is indicative of the impact of interest rate changes to our NII as of December 31, 2024, the analysis does not take into consideration future changes in the credit market, credit quality or other business or economic developments that could affect our NII. Accordingly, we can offer no assurances that actual results would not differ materially from the analysis above.

At-The-Market (ATM) Equity Program

ATM Equity Program provides efficient and low cost access to equity capital

- **Provides access to equity capital to match growth of LMM investments on an as-needed basis**
- **Provides significant economic cost savings compared to traditional overnight equity offerings**

Provides permanent capital to match indefinite or long-term holding period for LMM investments

Facilitates maintenance of conservative leverage position

Issued equity is accretive to NAV per share

Provides significant benefits vs traditional overnight equity offerings

- Provides equity capital and liquidity on an as-needed basis, avoiding dilution from larger overnight equity offerings
- Provides equity capital at significantly lower cost
- Avoids negative impact to stock price from larger overnight equity offerings

Raised net proceeds of \$1.155 billion since inception in 2015⁽¹⁾

- Average sale price is approximately 60% above average NAV per share over same period⁽¹⁾
- Resulted in economic cost savings of approximately \$58.3 million when compared to traditional overnight equity offering⁽¹⁾⁽²⁾

(1) Through December 31, 2024

(2) Assumes 6% all-in cost for traditional overnight equity offering

LMM Investment Strategy

LMM investment strategy differentiates MAIN from its competitors and provides attractive risk-adjusted returns

MAIN's permanent capital structure as a publicly traded investment firm allows MAIN to maintain a long-term to permanent expected holding period for its LMM investments, providing significant benefits to both MAIN and our LMM portfolio companies

Investment Objectives

- High cash yield from secured debt investments (12.4%⁽¹⁾ weighted-average cash coupon as of December 31, 2024); plus
- Dividend income, fair value appreciation and periodic capital gains from equity investments

Investments are structured for (i) protection of capital, (ii) high recurring income and (iii) meaningful capital gain opportunity

Focus on self-sponsored, "one-stop" financing opportunities

- Partner with business owners, management teams and entrepreneurs
- Provide highly customized financing solutions
- Recapitalization, buyout, growth and acquisition capital
- Extensive network of grass roots referral sources
- Strong and growing "Main Street" brand recognition / reputation

Investments have low correlation to the broader debt and equity markets and attractive risk-adjusted returns

Unique LMM strategy, combined with MAIN's perpetual capital structure and goal to be long-term partners, results in a highly diversified and high-quality investment portfolio

(1) Weighted-average cash coupon is calculated using the applicable cash interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; excludes amortization of deferred debt origination fees and accretion of original issue discount, any fees payable upon repayment of the debt investment and any debt investments on non-accrual status

LMM Investment Opportunity

MAIN targets LMM investments in established, profitable companies

Characteristics of LMM provide beneficial risk-reward investment opportunities

Large and critical portion of U.S. economy

- 195,000+ domestic LMM businesses⁽¹⁾

LMM is under-served from a capital perspective and less competitive

Inefficient asset class generates pricing inefficiencies

- Typical entry enterprise values between 4.5X – 6.5X EBITDA
- Typical entry leverage multiples between 2.0X – 4.0X EBITDA to MAIN debt investment

Partner relationship with the management teams of our portfolio companies vs a “commoditized vendor of capital”

(1) Source: U.S. Census 2017 – U.S. Data Table by Enterprise Receipt Size; 2017 County Business Patterns and 2017 Economic Census; includes Number of Firms with Enterprise Receipt Size between \$10,000,000 and \$99,999,999

Private Loan Investment Strategy

Private Loan portfolio investments are primarily debt investments in privately held companies which have primarily been originated directly by MAIN or, to a lesser extent, through strategic relationships with other credit funds on a collaborative basis (often referred to in the debt markets as “club deals” because of the small lender group size)

MAIN’s Private Loan investments are typically made to a company owned by or being acquired by a private equity fund

Investment Objectives

- Access proprietary investments with attractive risk-adjusted return characteristics
- Generate cash yield to support MAIN’s monthly dividend

Investment Characteristics

- Targets companies with annual revenue between \$25 million and \$500 million and annual EBITDA between \$7.5 million and \$50 million
- Proprietary investments primarily originated directly by MAIN or, to a lesser extent, through strategic relationships with other investment funds on a collaborative basis
- Current Private Loan portfolio companies have weighted-average EBITDA of approximately \$30.5 million⁽¹⁾

Investments in secured debt investments

- First lien, senior secured debt investments
- Floating rate debt investments

9% – 14% targeted gross yields

- Weighted-average effective yield of 11.8%⁽²⁾
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide matching with MAIN’s floating rate Credit Facilities⁽³⁾

(1) This calculation excludes five Private Loan portfolio companies as EBITDA is not a meaningful metric for these portfolio companies

(2) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(3) The defined term and additional details for the Credit Facilities are included on page 18

Asset Management Business

MAIN's Asset Management Business (AMB) represents additional income diversification and the opportunity for greater stakeholder returns

MAIN's internally managed operating structure provides MAIN's stakeholders the benefits of this AMB

Growth of AMB is primarily driven by MAIN's Private Loan investment strategy

MAIN⁽¹⁾ is the investment adviser to several third party clients in its AMB

MAIN⁽¹⁾ is the investment adviser to and administrator of MSC Income Fund, Inc. (NYSE: MSIF), a publicly traded BDC solely focused on MAIN's Private Loan investment strategy⁽²⁾

- MAIN⁽¹⁾ provides asset management services, including sourcing, diligence and post-investment monitoring
- MAIN⁽¹⁾ receives management fees and incentive fees
 - Base management fee of 1.50% of total assets⁽²⁾
 - Incentive fees – 17.5% of net investment income above a hurdle rate with a 50% / 50% "catch-up" provision and 17.5% of net realized capital gains⁽²⁾

MAIN⁽¹⁾ is the investment adviser and administrator to two private funds and separately managed accounts, each of which is solely focused on MAIN's Private Loan investment strategy

Benefits to MAIN

- Highly predictable source of recurring base management fee income, with opportunity for upside through incentive fees
- No significant increases to MAIN's operating costs to provide services (utilize existing infrastructure and investment capabilities and leverage fixed costs)
- Monetizing the value of MAIN franchise
- Significant positive impact on MAIN's financial results
 - \$8.7 million contribution to net investment income in the fourth quarter of 2024⁽³⁾
 - \$34.3 million contribution to net investment income in the year ended December 31, 2024⁽³⁾
 - \$33.4 million contribution to net investment income in the year ended December 31, 2023⁽³⁾
 - \$216.5 million of cumulative unrealized appreciation as of December 31, 2024

(1) Through MSC Adviser I, LLC (the External Investment Manager), MAIN's wholly-owned unconsolidated subsidiary

(1) In January 2025, MSIF completed a listing and follow-on equity offering of its shares of common stock; effective upon such listing, MSIF (a) changed its investment strategy to be solely focused on co-investing with MAIN in its Private Loan investment strategy and (b) entered into an amended and restated investment advisory agreement with the External Investment Manager to, among other things, (i) reduce the annual base management fee from 1.75% to 1.50% of its average total assets, (ii) reduce the subordinated incentive fee on income on pre-incentive fee net investment income above a specified hurdle rate from 20.0% to 17.5% and (iii) reduce the incentive fee on cumulative net realized capital gains from 20.0% to 17.5% with such cumulative net realized capital gains measured from MSIF's listing date

(1) Contribution to Net Investment Income includes (a) dividend income received by MAIN from the External Investment Manager and (b) operating expenses allocated from MAIN to the External Investment Manager

Total Investment Portfolio

Diversity provides structural protection to investment portfolio, revenue sources, income, cash flows and shareholder dividends

Includes complementary LMM debt and equity investments and Private Loan debt investments

Total investment portfolio at fair value consists of approximately 51% LMM / 39% Private Loan / 3% Middle Market⁽¹⁾ / 7% Other Portfolio⁽²⁾ investments

Highly Diversified investment portfolio

- 190 LMM, Private Loan and Middle Market⁽¹⁾ portfolio companies
- Average investment size of \$21.5 million⁽³⁾⁽⁴⁾
- Largest individual portfolio company represents 3.3%⁽⁵⁾ of total investment income and 3.8%⁽⁴⁾ of total portfolio fair value (most investments are less than 1% of income and fair value)
- Investments on non-accrual status represent 0.9% of the total investment portfolio at fair value and 3.5% at cost
- Weighted-average effective yield of 12.2%⁽⁶⁾

Also diversified across all key investment characteristics

- Lower entry multiple valuations, lower cost basis
- Opportunity for dividend income, fair value appreciation and periodic capital gains
- 66% of LMM portfolio companies⁽²⁾ with direct equity investment are currently paying dividends
- Fair value appreciation of equity investments supports Net Asset Value per share growth
- \$565.1 million, or \$6.39 per share, of cumulative pre-tax net unrealized appreciation as of December 31, 2024

(1) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(1) Includes the LMM portfolio companies that (a) MAIN has a direct equity investment and (b) are flow-through entities for tax purposes; based upon dividend income for the year ended December 31, 2024

LMM Investment Portfolio

LMM investment portfolio is a pool of high quality, seasoned assets with attractive risk-adjusted return characteristics

MAIN's long-term to permanent expected holding period for its LMM investments significantly enhances the quality of MAIN's LMM investment portfolio and drives significant fair value appreciation

Median LMM portfolio credit statistics⁽¹⁾:

- Senior leverage of 2.7x EBITDA through MAIN's debt position
- 2.7x EBITDA to senior interest coverage
- Total leverage of 2.7x EBITDA including debt junior in priority to MAIN
- Free cash flow de-leveraging improves credit metrics and increases equity appreciation

Average investment size of \$29.8 million at fair value or \$23.1 million on a cost basis (less than 1% of total investment portfolio)

Opportunistic, selective posture toward new investment activity over the economic cycle

High quality, seasoned LMM portfolio

- MAIN has been invested in 26% (22 different companies) of its LMM portfolio companies for greater than 10 years (representing 11% of total cost basis and 18% of total fair value)
- Total LMM investment portfolio at fair value equals 129% of cost
- Equity component of LMM portfolio at fair value equals 208% of cost
- Majority of LMM portfolio companies have de-leveraged and have experienced equity appreciation
 - 57 LMM portfolio companies with unrealized appreciation on equity investments
 - Cumulative net unrealized appreciation on LMM equity investments of \$611.0 million

(1) These credit statistics exclude portfolio companies on non-accrual status and six companies for which EBITDA is not a meaningful metric

Private Loan Investment Portfolio

Private Loan investment portfolio provides a diversified mix of investments and sources of income to complement the LMM investment portfolio

91 investments / \$1.9 billion in fair value

- 39% of total investment portfolio at fair value

Average investment size of \$21.5 million⁽¹⁾ (less than 1% of total portfolio)

Investments in secured debt instruments

- 95%⁽¹⁾ of Private Loan portfolio is secured debt
- Over 99%⁽¹⁾ of Private Loan debt portfolio is first lien term debt

Debt yielding 11.8%⁽²⁾

- 97%⁽¹⁾ of Private Loan debt investments bear interest at floating rates⁽³⁾, providing matching with MAIN's floating rate Credit Facilities⁽⁴⁾
- Approximately 500 basis point effective interest margin vs "matched" floating rate on MAIN's Credit Facilities⁽⁴⁾

(1) As of December 31, 2024; based on cost

(2) Weighted-average effective yield is calculated using the applicable interest rate as of December 31, 2024 and is weighted based upon the principal amount of each debt investment as of December 31, 2024; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(3) Over 99% of floating interest rates on Private Loan debt investments are subject to contractual minimum "floor" rates

(4) The defined term and additional details for the Credit Facilities are included on page 18

Non-GAAP Information

Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impacts of non-cash compensation expenses (as defined below). MAIN believes presenting distributable net investment income and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Non-cash compensation expenses consist of (i) share-based compensation and (ii) deferred compensation expense or benefit, both of which are non-cash in nature. Share-based compensation does not require settlement in cash. Deferred compensation expense or benefit does not result in a net cash impact to MAIN upon settlement. The appreciation (depreciation) in the fair value of deferred compensation plan assets is reflected in MAIN's Consolidated Statements of Operations as unrealized appreciation (depreciation) and an increase (decrease) in compensation expenses, respectively. MAIN believes presenting non-cash compensation expenses is useful and appropriate supplemental disclosure for analyzing its financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, non-cash compensation expenses are non-U.S. GAAP measures and should not be considered as a replacement for compensation expenses, total expenses or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Net Debt to NAV Ratio is calculated as the Debt to NAV Ratio as determined in accordance with U.S. GAAP, except that total debt is reduced by cash and cash equivalents. The **Regulatory Debt to NAV Ratio** is calculated in the same manner as the Debt to NAV Ratio, except that outstanding SBIC debentures are excluded from the debt pursuant to an exemptive order MAIN received from the SEC. MAIN believes presenting the Net Debt to NAV Ratio is useful and appropriate supplemental disclosure for analyzing its financial position and leverage. MAIN believes presenting the Non-SBIC Debt to NAV Ratio is useful and appropriate supplemental disclosure because MAIN, a business development company, is permitted to exclude such borrowings from its regulatory asset coverage ratio calculation pursuant to an exemptive order received from the SEC. However, the Net Debt to NAV Ratio and the Non-SBIC Debt to NAV Ratio are non-U.S. GAAP measures and should not be considered as replacements for the Debt to NAV Ratio and other financial measures presented in accordance with U.S. GAAP. Instead, the Net Debt to NAV Ratio and the Non-SBIC Debt to NAV Ratio should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial position.
